The team's twenty skills

Multi AI Agents for Content Creation (Claude Edition) · Day 1 · Use Claude Code

Each skill is a folder with a SKILL.md: a name, a "Use when…" description (the trigger), then the steps. Under 80 lines each. Keep the master copy in skills/ and copy it where each tool looks:

Tool	Where skills live
Claude Code (every subagent and teammate)	.claude/skills/<name>/SKILL.md
Claude (desktop and web)	Customize -> Skills (via /skill-creator)

Owner	Skill	Use when…
Growth Strategist	competitor-scan	Use when researching Horizon's market or competitors. Six named Singapore competitors across planning firms, robo-advisers, bank advisers and finfluencers: offer, pricing model, channels, content themes, gaps. Every figure cited with a date, or UNKNOWN.
Growth Strategist	campaign-brief	Use when planning a Horizon campaign. Objective, audience, core message, proof from facts-2026.md, channels, one call to action, measures, and a five-beat storyboard (hook, tension, proof, resolution, action).
Growth Strategist	content-marketing	Use when planning what Horizon publishes and why. Three content pillars, each idea tagged to a funnel stage (aware, consider, book), one call to action per stage, and how one idea is repurposed across blog, LinkedIn, Facebook, email and video.
Content Creator	sunny-voice	Use when writing anything Horizon will publish. Plain English, warm and calm; banned words; explain acronyms once; no sentence over 25 words; the Sunny sign-off on social posts.
Content Creator	copywriting	Use when writing a headline, hook, subject line or call to action for Horizon. Problem-agitate-solve or AIDA; one reader, one promise, one action; three options with a reason for the best; no hype and no promise of returns.
Content Creator	channel-formats	Use when writing a LinkedIn post, Facebook post, newsletter issue, YouTube script or page copy. The shape of each channel, UTM links, the short disclaimer and the content-file frontmatter.
Content Creator	linkedin-post	Use when writing a Horizon LinkedIn post. A first line that stands alone, short paragraphs, one idea backed by facts-2026.md, a

		question or one call to action, a UTM link, three hashtags and the short disclaimer.
Content Creator	facebook-post	Use when writing a Horizon Facebook post. Warm and local, 60-150 words, ends with a question, an image brief with alt text, a UTM link and the short disclaimer.
Content Creator	blog-post	Use when writing a Horizon blog article. One search intent and keyword, a title under 60 characters, a meta description under 155, H2 sections, a FAQ, sources cited, 700-1,000 words, one call to action and the full disclaimer.
Content Creator	newsletter	Use when writing a Sunny Sunday email. Subject under 50 characters, preview under 90, one tip, one nudge, one call to action, plain-text twin, unsubscribe, address and disclaimer; consent-only recipients.
Creative Designer	brand-visuals	Use when making any Horizon image, carousel, thumbnail or video frame. Colours (ink #22305B, sun #FFC845, sky #EAF3FF), Sunny, thick outlines, readable text at thumbnail size, alt text, and an AI-disclosure note. No real or synthetic "clients".
Creative Designer	video-render	Use when turning an approved scenes.json into a video. One branded card per scene, 1920x1080, under 90 seconds, ffmpeg; check with ffprobe; never change approved words.
Website Designer	web-design	Use when designing or restyling any Horizon page. Brand tokens, type scale, one column on mobile, 44px tap targets, contrast AA, one primary button per screen, and a layout that leads to the call to action.
Website Designer	landing-page	Use when building a Horizon campaign or lead-magnet page. One self-contained page in the brand tokens: hero, proof, the offer, a form with a required PDPA consent box, the footer disclaimer word for word; ready to publish as a Claude artifact.
Website Designer	lead-magnet	Use when creating or promoting a Horizon lead magnet such as the Money Check-up Checklist. The reader's problem, one promise, the format, the items from checklist-items.md, the opt-in page with PDPA consent, the delivery email, and the measure (downloads to chats).
Website Designer	page-qa	Use before any Horizon page is published or shared. Check 1440px

		and 375px, keyboard focus, alt text, links, the calculator test (S$693,138), the consent box and the disclaimer; report PASS or FAIL.
Growth Analyst	audience-insights	Use when analysing Horizon's survey, enquiries or checklists. Count with code; every claim carries n and the file; label INFERENCE and LOW CONFIDENCE (n < 20); quote enquiries verbatim with ids.
Growth Analyst	campaign-report	Use when reporting Horizon's marketing results. Per channel: clicks, checklist downloads, chats booked, cost per chat; the best and worst channel; next month's budget split with reasons; one page.
Marketing Team Lead	fact-check	Use when a draft contains a number, age, rate, date or rule. Match every claim to facts-2026.md: VERIFIED or UNVERIFIED. Never fix a figure from memory.
Marketing Team Lead	fin-compliance	Use before any Horizon content goes to a person for approval. Apply compliance-checklist.md C1-C12; a table of issues with severity; PASS only with no Critical or High issue; the right disclaimer.
