Lab 07 — Growth Analyst and Strategist: Cadence and Calendar

Multi AI Agents for Content Creation (Claude Edition) · Day 1 · Use Claude Code

> **USE: CLAUDE CODE** — Code mode (the </> button) in the Claude desktop app, in your horizon-studio folder

Course: Multi AI Agents for Content Creation (Claude Edition) (C1034)

Day 1 · Topic 2 · about 35 minutes · slides 79–84

Surface: Claude Code (subagents)

Features: marginal value vs fatigue · team capacity · review buffers · a four-week calendar

> **Copy the prompts:** https://tertiarycourses.github.io/C1034-Multi-AI-Agents-for-Content-Creation/prompts/claude/#lab-7 — click **Copy** next to each prompt, then paste it into the chat.

The story so far

Jun Wei has 12 hours a week and Rachel needs two business days to review anything. How often should each channel run, and what goes out when?

Your goal

Post too little and nobody remembers you; too much and people unfollow. The analyst finds the point where more stops paying; the strategist turns it into four deliverable weeks.

You'll build

how often to post on each channel, and a four-week calendar — shown as artifacts, with a Word copy of each

What is in this folder

> **.md or .pdf?** A `.md` file (Markdown) is plain text that Claude reads. Every `.md` here has a `.pdf` twin with the same name — open the PDF to read it yourself.

- `assets/channel-benchmarks.csv`
- `assets/team-capacity.md`
- `assets/calendar-format.csv`
- `prompts.md` / `prompts.pdf` — every prompt, ready to paste
- `evidence/checklist.md` / `checklist.pdf` — what to capture as proof

Step by step

1. **New session** — Left sidebar: click + next to horizon-studio. Click the session title at the top and rename it "Lab 7". Run all of this lab's prompts in it.
2. **Check the data** — The assets are already in data/. Open one and skim it.
3. **Find the sweet spot** — Copy and paste Prompt A.
4. **Question it** — Why is the newsletter not weekly? The answer is in the unsubscribes.
5. **Plan four weeks** — After the analyst recommends a cadence, copy and paste Prompt B.
6. **Check the buffers** — Every review date is two business days ahead; nothing on a holiday.

The prompts

PROMPT A — Claude Code: the analyst

> Use the growth-analyst subagent. From data/channel-benchmarks.csv and data/team-capacity.md, recommend how often to publish on LinkedIn, Facebook, the newsletter and YouTube. Compare the extra clicks from one more post, the unfollows or unsubscribes it costs, and the hours → strategy/cadence.md.
> Publish it as an artifact: a chart per channel of the extra clicks against the unfollows, and the hours.
> Write for a business owner, in plain English: no codes, IDs, file names or line numbers; start with what it means and what I do next. Save a Word copy (.docx) of each result.

PROMPT B — Claude Code: the strategist

> Use the growth-strategist subagent to build a four-week calendar from Monday 2 November 2026 in strategy/calendar.csv (columns as data/calendar-format.csv), from the cadence, strategy/storyboard.md and strategy/content-spec.md. review_by two business days before each date; no public holidays; no week over the team's hours.
> Publish the four weeks as an artifact: a calendar grid by channel, review dates marked, hours per week.
> Write for a business owner, in plain English: no codes, IDs, file names or line numbers; start with what it means and what I do next. Save a Word copy (.docx) of each result.

Ask about the result

Once a result opens, type any of these in the chat to get its meaning. Ask until it makes sense to you — then decide.

- "Why is the newsletter not weekly? Show me the numbers."

- "What happens if we add a third LinkedIn post a week?"
- "Which week is busiest, and does the team have the hours?"

Check your work

- ☐ The cadence gives a frequency per channel with the evidence.
- ☐ A third LinkedIn post a week costs far more unfollows than it earns.
- ☐ It explains the unsubscribe jump at weekly emails.
- ☐ The calendar covers four weeks in the required columns.
- ☐ Every review_by date is two business days before publishing.
- ☐ No week is over 12 hours.

If it goes wrong

- **Dates fall on weekends** — Say: "publish Monday to Saturday; the newsletter is Sunday 8am only".

Stretch

- Ask Claude to add the four review deadlines to your Google Calendar.

> **Why it matters:** Frequency is a capacity decision as much as an audience one. A calendar the team cannot deliver is fiction.

Next

Lab 8 — Content Creator: A Quick Blog Article. Keep what you built — the next lab starts from it.

Safety

Use only this lab's synthetic data and your own accounts. Never paste a real API key, password, token or client data into a prompt or a file. Every email address in the data must resolve to your own inbox. Nothing is published or sent without a person approving that exact version.
